Work to be done by Shareholder:

Already Approved

1. #39 Koerner requests permission to plant an artificial bush in front of their unit. They have been unable to maintain a live bush in that spot. They have spoken to Allman #37 who has the parking space there and was told it would not be a problem.
2. #95 Champagne requests permission to lay pavers between his unit and #96 Kathy Flynn subject to her approval. He also requests permission to add railing to his front porch. He included detailed drawings for both projects.

The Board inspected the area for both requests.

#96 did not give her approval so the request for the pavers was denied.

The Board approved the additional railing for his porch.
