Hope everyone is enjoying their summer!

Ray Dawson had knee surgery in April. He is recovering quickly. From what I hear he is back playing golf and Sally has him going on hikes in rough terrain; I don't think he did that before surgery!!! Ray said the next time she wants to go hiking he is sitting in the truck!

Welcome
to the neighborhood

114—Joseph Trause & Christine Pallamara
116- Hossein Sakhai
120 - Monty Velasco & Maria Trippe

In June, you were emailed our **Twin Shores Hurricane/Storm Plan**. If you have not done so already, please take a few minutes and review it. Thanks Ron for taking this project on!

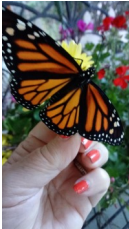

The new air conditioners have been installed in the clubhouse. They are very quiet and we will not have to worry about getting wet when we enter the clubhouse!

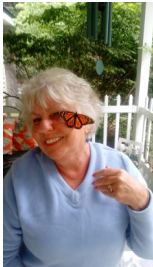

The walls are painted and look beautiful.
Thanks so much Clubhouse Committee.

Don't forget our "Once Upon a Summer" photo contest. Submit your photos of what you have been doing this summer. Judging happens in September and all photos will be on display in the clubhouse.

Did you know?

Monarch butterflies are on the verge of being an endangered species in the USA. You can help by learning to raise and release. It's amazing! The last generation each summer are the ones that migrate and come back in the summer. I just KNOW some of the ones that are here now come back to see mom Karen Kroll!!

Please keep your neighbors and friends that might be struggling right now in your thoughts and prayers.

FOUND in the clubhouse two house keys. If they are yours, let John S know in the office.
